Attached are the R7LIMS information files downloaded for all analyses on ASR #8209.

If you have any questions about these files/method numbers, please feel free to contact Tabatha (TJ) Adkins at 913-551-7128.

Hope this information helps. Please disregard the containers noted on the above attached files. What I sent you via email on 4/3/2019 allows for analyses combinations, so you don't have to take so many containers.

Thank you...Nicole ☺
